

Seemingly Too Good To Be True: Design, Installation and Financial Assistance to Homeowners' Landscaping Projects

Dakota County Soil and Water Conservation District makes it easy for residents to plan, purchase and install native gardens, raingardens and shorelines. In fact, they help home-owners with each step of the process. To find out how you can take advantage of design, installation and financial assistance in creating a beautiful and beneficial garden, attend one of the award winning Blue Thumb-Planting for Clean Water® program's introduction presentations.

The resources we got through the workshops are phenomenal! I found that the advice you all had to offer regarding the process was ALWAYS the right way to go."

"The best hands-on workshop I've ever been to"
