

# Beverly Virblas Lined Waterway

### Practice:

Lined Waterway

### Benefits:

Reduced Erosion and sedimentation

### Partners:

BWSR  
NRCS

### Watershed:

Vermillion River

### Sub-Watershed:

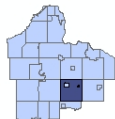

South Branch of Vermillion River

**Project:** A 30' long by 20' wide' lined rock crossing through a newly constructed grassed waterway. The crossing will allow equipment to cross the waterway without causing damage.

**Funding:** Total project cost: \$1,021  
• BWSR-State Cost Share: \$637.50 (62%)  
• IPP Program: \$85 (8%)  
• Landowner: \$298.50 (29%)

### Location:

Section 16  
Hampton Twp.
